

Environmental Policy

1. Purpose

At AMFISOL B.V., we are committed to conducting business in a way that respects and protects the environment. This policy outlines our approach to minimizing our ecological footprint and embedding sustainability into every aspect of our operations.

2. Guiding Principles

- We operate with integrity and responsibility, placing environmental stewardship at the heart of our business.
- Our products and practices are designed to support the global energy transition and promote long-term sustainability.
- We believe that meaningful environmental action begins within our own organization and extends through our supply chain.

3. Scope

This policy applies to all employees, departments, and operations of AMFISOL B.V., as well as to our suppliers and contractors where relevant.

4. Environmental Focus Areas

4.1 Sustainable Research & Development

- Sustainability requirements are integrated into the design and development of all products and systems.
- Materials used must guarantee a minimum lifespan of 25 years and be fully recyclable.
- Packaging and transportation methods are optimized during the design phase to reduce environmental impact.

4.2 Energy Efficiency & Renewable Energy Use

- Production partners utilize energy-efficient machinery and tools.
- Facilities are powered primarily by renewable energy—either self-generated (e.g., solar panels, wind turbines) or sourced from certified green energy providers.
- We continuously seek innovative techniques to reduce energy consumption across our operations.

4.3 Waste Management & Recycling

- Material waste from wrapping film around pallets recovered and recycled to prevent loss of valuable resources.
- Circularity is promoted throughout our production and operational processes.

4.4 Sustainable Procurement

- We prioritize suppliers who share our environmental values and demonstrate sustainable practices.
- Our procurement strategy supports improvements in the sustainability of our suppliers' operations.
- Supplier relationships are built on transparency, accountability, and shared responsibility.

4.5 Employee Engagement & Communication

- All employees are expected to actively support and implement this environmental policy.
- Regular updates and training are provided to ensure awareness and alignment.
- Stakeholders are kept informed of our environmental performance and initiatives.

4.6 Environmental Management

- We ensure compliance with applicable environmental regulations and standards.
- Action plans are developed and implemented to address identified risks and opportunities for improvement.

5. Commitment

We are dedicated to making a measurable, positive impact on the environment. Our actions reflect our values, and we invite all employees and partners to contribute to a more sustainable future.
